

# Red Mountain Freeway Project

## McKellips Road Closure

### Completed Ahead of Schedule

December 2006

ADOT

## Traffic Changes

### McKellips reopening to traffic starting December 2006

#### Thank You for Working With Us!!!

The Arizona Department of Transportation (ADOT), is making progress constructing the Red Mountain Freeway and will re-open McKellips Road between Power and Ellsworth roads in December. The closure, which began May 30th, facilitated safer and quicker construction.

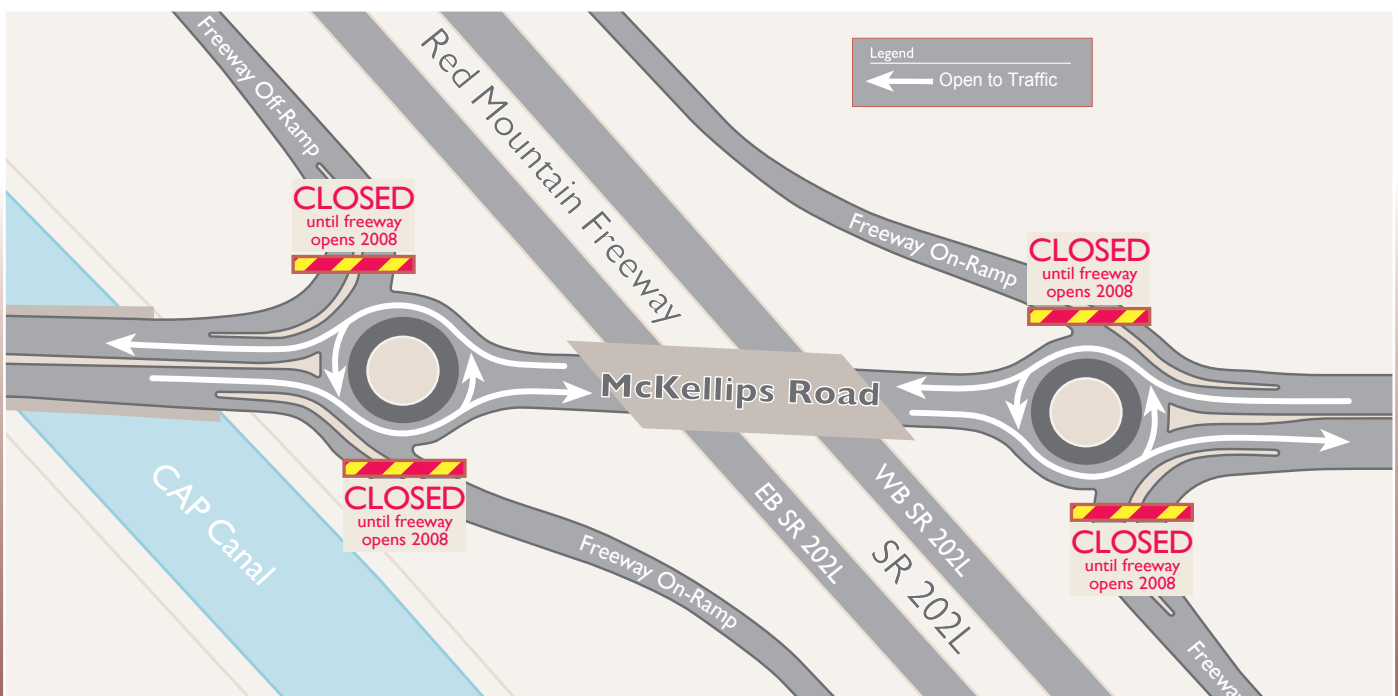

The City of Mesa, Maricopa County, ADOT, and ADOT's Contractor all shared in time and cost savings from this efficient and safe road closure.

**Thank You!!!!** for your continued support and patience during the Red Mountain Freeway construction. The new freeway is part of the voter-approved Regional Freeway System. For more information call Brock Barnhart, ADOT Office of Communication and Community Partnerships. 602-712-7176 or [bbarnhart@azdot.gov](mailto:bbarnhart@azdot.gov)

#### Roundabouts at New Intersections

The freeway interchange at McKellips Road will be roundabouts. Until the freeway is open in the Fall of 2008, the roundabouts will function as pictured below.

ADOT is developing educational tools for communities considering or implementing roundabouts and we are available to speak with your neighborhood or homeowner association about our activities in the area. Please call Brock Barnhart with ADOT's Office of Communication and Community Partnerships at 602-712-7176 to schedule a visit.

Our Valley Freeway System is part of the 2004 voter-approved Regional Transportation Plan. We are working hard with other transit partners to implement the voters' vision and are committed to quality, safety, open communication with our neighbors, and minimal inconvenience.
